

Hiring Manager Evaluation

After a Recruiter has reviewed an application and determined that the Candidate is Qualified, the Application is moved to Hiring Manager Evaluation.

This stage indicates that an Application is ready for Hiring Manager review.

If at any time you decide not to select a Candidate, you may choose that option which then removes the Candidate from the active applicant list under consideration.

Whenever you take an action, for example, when you review a resume, you **MUST** change the Stage to Resume Review.
