

Request a Job Requisition be created?

- [Request a Job Requisition be created](#)

Request a Job Requisition be created

Make a request through MyPers.

The request will go to the Talent Acquisition Team

A Recruiting Manager will assign it to a Talent Acquisition Consultant (recruiter) and they will build the Job Requisition.

Upon approval by a Recruiting Manager the Job Requisition will be converted to an active Job.

When a job is active within Salesforce, a license will be issued to the Hiring Manager
